

LEAPSTER® FAMILY OF LEARNING SYSTEMS

The first handheld educational video-gaming system, LeapFrog's Leapster Learning Game System set the standard upon its introduction in 2004. A perennial favorite, the Leapster platform supports on-the-go learning fun, while the Leapster L-Max™ system offers handheld gaming and screen connectivity, for maximum flexibility. More than 40 software titles, compatible across platforms, provide kids with gameplay and learning that automatically adapt to individual skill levels. Additionally, tailored tutorials ensure that kids are guided to understanding every step of the way.

LEAPSTER LEARNING GAME SYSTEM

CURRENTLY AVAILABLE; AGES: 4 TO 10 YEARS; MSRP: \$59.99

LeapFrog's learn everywhere Leapster handheld offers learning opportunities and fun to kids at home or on the road! The first educational video-gaming platform, the Leapster Learning Game System features an interactive touch screen and stylus pen to allow for writing, drawing, and painting. Add an extensive software library designed to grow with kids from preschool to 4th grade, and kids will be playing and learning for years to come!

LEAPSTER L-MAX LEARNING GAME SYSTEM

CURRENTLY AVAILABLE; AGES: 4 TO 10 YEARS; MSRP: \$89.99

By combining handheld and screen learning, the Leapster L-Max Learning Game System from LeapFrog brings ultimate versatility to educational video gaming. Expanding on the Leapster platform, the Leapster L-Max system provides kids the opportunity to respond to learning prompts on the touch-sensitive handheld screen and see their answers come to life on the TV screen, allowing parents to share in children's learning experiences. Unplugged from the TV, the L-Max platform offers handheld educational gaming for kids on the move.

LEAPSTERTV™ LEARNING SYSTEM

CURRENTLY AVAILABLE; AGES: 4 TO 8 YEARS; MSRP: \$49.99

The LeapsterTV Learning System is the first educational game console complete with stylus and touchpad, for developing important pre-writing skills. Compatible with the entire Leapster software library, this premier system offers the bonus of a chunky, kid-friendly joystick for more ways to control game play.

NEW! LEAPSTER FAMILY SOFTWARE

In 2007, LeapFrog introduces 12 new titles with which kids can learn and play with the Leapster systems, bringing the number of titles in the software library to more than 40! Compatible with the Leapster, Leapster L-Max, and LeapsterTV platforms, all the games provide in-depth tutorials and a supporting hint structure that offer step-by-step assistance through reading, math, or spelling concepts.
