See your Learning Path

If you've created an account through the LeapFrog website or the LeapFrog Connect Application, [see your Learning Path now](#).

[See it now](#)

To get started, first click on the Learning Path tab, which will bring you to the Learning Path Information Center.

To create a Learning Path for your child, you first need to set up a free LeapFrog Parent account. Click on Register today to create an account.

Creating your child's Learning Path

Creating a LeapFrog Parent account is easy. Just enter your name, email address, and optional country information. You will also need to create a unique password so you can log back in to your account later.

Click the AGREE AND GO TO STEP 2 button.

Step 2: Create New Footprint

A footprint is the nickname used for your child's Learning Path. Your child's play details will be saved to his or her footprint, empowering you to see what your child is learning and enabling your child to collect online rewards. Create a footprint for each child by providing the information below.

STEP 1 Create a LeapFrog account

STEP 2 Create child footprints

***Required**

First name *

Date of birth Month Year

Grade level *

Gender * Girl Boy

ADD ANOTHER CHILD **SAVE AND FINISH** **SKIP THIS STEP**

Why do I need to do this?

By telling us a little about your child, a footprint enables LeapFrog to create a personal Learning Path that is tailored to him or her. All of your child's play details will be saved to this footprint, empowering you to see what your child is learning and get insight into what comes next. Your child will also be able to see the online rewards he or she has earned.

To create your child's footprint, just enter in your child's first name, month and year of birth, grade level and gender.

To enter a footprint for an additional child, click the **ADD ANOTHER CHILD** button

When you're finished, click **SAVE AND FINISH**.

Creating your child's Learning Path

Congratulations

Your child's Learning Path footprint has been set up successfully. You'll receive an email within 24 hours with your 10-20% discount offer, plus tips on how to get the most out of your LeapFrog Learning Path.

*Your email should arrive within 24 hours.

What's next?

To begin exploring your child's personal LeapFrog Learning Path, simply follow the instructions below to link your LeapFrog toys and learning systems. Each product you link informs the Learning Path of your child's progress in different skill areas.

If you have LeapFrog Connected systems:

If you have one of the following systems, please install the LeapFrog Connect Application that came with the system into your computer and follow the directions on-screen.

- Tag™ Reading System
- Didj™ Custom Gaming System
- Leapster2 Learning Game System
- Crammer™ Study and Sound System

Can't find your installation CD? [Download LeapFrog Connect here.](#)

If you have other LeapFrog toys or learning systems:

Click the button below to tell us which toys your child is playing with. Be sure to link all of your child's LeapFrog products for the most detailed and informative view into your child's learning. Linking products also enables LeapFrog to keep you notified about important safety information.

[link products now](#)

That's all it takes to set up your child's footprint!

Now you'll need to link your child's LeapFrog products with their footprint.

To link LeapFrog Connected products, install the LeapFrog Connect Application from the CD that came with the system and follow the directions. View the Installing LeapFrog Connect tutorial for more information.

To link non-connected LeapFrog products, click on link products now.
