

PreK-Grade 3

Tag™ School Reading System

Books come alive with engaging, interactive stories and activities.

The Tag School Reader brings innovative technology and engaging content together in one interactive reading system.

Every touch a student makes with a Tag School Reader creates a multisensory reading experience. Students can hear stories read aloud, get on-demand pronunciation for individual words, listen to audio from characters and other story elements, and play fun activities that reinforce key skills.

On-demand support, narration from familiar characters, and fun, skill-building activities help students learn at their own pace, developing the confidence they need to achieve success on their reading journey.

The Tag School Reading System offers:

- Easy-to-use, portable, and affordable technology—without student computers
- Convenient headphones for quiet, independent use
- A simple and intuitive computer desktop application that allows teachers to download book audio and manage content on multiple Readers
- A robust library featuring activity storybooks, early-literacy books, children's classics, transitional reading titles, and more
